

Space Industry Internship Program Application for Industry Partners Spring 2026

Before starting your application:

Ensure you have at least 15 minutes to complete it in full. Incomplete applications will be automatically deleted within 24 hours. Read the website's **Industry Partner Overview** tab to review program requirements and details. Read the **Matching Interns with Industry Partners** tab for details on the intern selection and matching process.

Thank you for your interest in the new Space Industry Internship Program!

Company Information

Your First Name:

Your Last Name:

Position title at company:

Your primary email address:

Note: this email will be used to contact you with decisions and important updates about the Space Industry Internship program.

Your primary phone number:

Other Contacts:

Note: Please list any additional names and emails that should be aware of important updates about this program.

Name of company:

Company website:

Physical Arizona address / location of company:

Please provide a short description of the company:

Note: Remember, intern applicants will also have access to your company website.

Please provide a few keywords describing your company's focus area. For example: high-altitude ballooning, satellite design, etc.

Overview of Internship Opportunity

Please describe the primary responsibilities and areas of focus for your intern.

Note: We understand that day-to-day tasks may vary, so feel free to provide a general overview or list of key areas and responsibilities.

Please outline a few key tasks or projects the intern will be involved in, including what they will learn and contribute during the internship.

Please list any essential skills required of the intern. Note level of experience required (beginner, intermediate, advanced).

Please list any desirable skills of the intern. Note level of experience wanted (beginner, intermediate, advanced).

Does this position require any of the following:

☐ Security Clearance

☐ Background Check

☐ Drug Screening

☐ Other (specify)

Are there any additional qualifications or requirements for the intern that have not been noted above? For example: preferred graduation date, specific major, or minimum number of completed credit hours.

The committee will review all intern applications and then provide industry partners with 2-3 top-ranked candidates. Companies may conduct a short phone or virtual interview before confirming their intern placement.

- ☐ Yes - I will conduct a phone or virtual interview with potential interns.
- ☐ Maybe - I may conduct a phone or virtual interview with potential interns; TBD.
- ☐ No - I do not require a phone or virtual interview with my potential intern as long as the selection committee agrees this intern is a good fit for my company.

NASA Relevance

If you're familiar with NASA Mission Directorates, please select the one(s) that best align with your company's work.

- ☐ Aeronautics Research Mission Directorate (ARMD)
- ☐ Exploration Systems Development Mission Directorate (ESDMD)
- ☐ Space Operations Mission Directorate (SOMD)
- ☐ Science Mission Directorate (SMD)
- ☐ Space Technology Mission Directorate (STMD)
- ☐ Unknown- I am not familiar with the NASA MDs

How does your company align with NASA or NASA workforce needs?

Work Details

Work Details: Is this internship in-person or virtual?

- ☐ Completely in-person

- ☐ Mostly in-person
- ☐ Completely virtual
- ☐ Mostly virtual (intern may have to come in a few times for badging, etc.)
- ☐ Flexible

If this internship has in-person components, where will your intern primarily work (location)?

Does your company want a set work schedule or a flex work schedule?

- ☐ Flex Schedule (please describe)
- ☐ Set Schedule (please describe)
- ☐ Other (explain)

Additional Comments

Please list additional comments here.

I acknowledge that the Space Grant program will use and store the information in this application for NASA reporting and program management.

☐ I agree with the statement above.
